

ABHI PARAKHIYA

AI, ML, Python And Web
Programmer and
Developer

About Me

As a diligent and capable novice, I'm receptive to novel concepts and adept at executing them. I'm an active listener and articulate communicator, equally comfortable working both independently and collaboratively. My drive to leverage my abilities to meet goals is a primary motivating factor.

- Python Programing

PROJECT & INTERNSHIP

Fast Underwater Image Restoration June 2022 - March 2023

This project involves using algorithms to restore underwater image datasets, resulting in clear and clean images from previously hazy ones.

Anti Bunk System June 2023 - March 2024

Our proposed solution involves capturing live classroom videos through webcams and using facial detection technology to record attendance, increasing security measures and ensuring accurate attendance records. The technology also provides students with an opportunity to review lectures and discussions, promoting efficiency and effectiveness in education.

Summer Internship ZeqTech April 2023- May 2023

During my one-month internship, I acquired valuable knowledge regarding my specific domain in AI, ML, and Data Science. I learned the fundamental principles and concepts that apply to this field.

EDUCATION

Parul Institute Of Technology
Bachelor of Technology
2020-2024

Ashadeep Internation School
High School
2018-2020
