Anupam Sharma

- I'm pursuing a degree in Electronics and Communication Engineering as a fourth-year B-Tech student at the SRM Institute of Science and Technology in Chennai.
- I've worked with technologies including Java, SQL, Microsoft Excel and statistics.
- I have worked on a Covid Impact Analysis project where I examined how the pandemic affected the retail industry.
- I was the head of the planning committee for a national development event for student developers.

Projects

Covid Impact Analysis

- Tested Covid analysis program to assess the impact of Covid on retail business.
- Carried pre-post analysis to analyze the increase in customer visit and measured the impact using significance testing.

Bank Management System

- Used the C programming language to create the Bank Management System, which enabled users to create accounts, make deposit, withdrawals, and monitor the balances of their accounts.
- A number of banking modules, including account management, transaction processing, and reporting, have been integrated into the system.

Extracurricular Activities

Head of Organizing Committee - Team SRM Hackathon

- I was the head of the Organizing committee where I lead a national-level development event for student developers to generate ideas and construct remedies for issues in the actual world.

Open Source Contributor - Hacktoberfest

- Submitted an open source contribution and the repository maintainer successfully merged four of my Pull requests that were made public and unarchived.

Work Experience

Confederation of Indian Industry(CII) - Internship

- The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering industry, Government, and civil society, through advisory and consultative processes.

Organized and Managed District level Golf Tournament along with being in charge of organizing CII Leadership Conclave.
